

WEATHER — Race Window

Time	Sky	Temp	Feels	Rain%	Humid
18:00	Cloudy	80°F	85°F	16%	76%
19:00	Cloudy	78°F	83°F	21%	79%
~19:30	Cloudy	78°F	83°F	~17%	80%

Vis 10 mi · Pressure 29.77 inHg steady · Dew pt 71°F. Overcast; **stray shower/T-storm possible**. No harbor advisories.

WIND — Race Window

Time	Dir	Speed	Trend
18:00	S	3 mph (~3 kt)	Light / building
19:00	SSW	6 mph (~5 kt)	Veering → SW
~19:30	SW	~6 mph (~5 kt)	Steady SW

Ventusky 10 m confirms **light air over Upper Bay**. Expect **progressive right-shift (S→SW)** — favor the right up the beat. **3–6 kt = light-air**.

TIDES — The Battery

Event	Time	Height
High Tide	16:30	5.12 ft
Low Tide	23:31	0.60 ft

Window is **1.5–3 hrs after HW** → falling tide; ample depth across course, no height concern.

CURRENT — Tidal Stream (derived)

Window	State	Set	Strength
18:00–19:30	EBB	Southerly → Narrows	Mid-ebb, building

Ebb sets fleet S/seaward — assists the beat OUT (south) but is foul on the return N to finish. **Wind-against-tide** on the run → short chop + recall risk at start.

RECOMMENDED COURSE — from Appendix 1C (Non-Pursuit)

SELECT → COURSE “BRAVO” **Start → C → B → Finish | 2.34 NM**

C = G°35” FI G 4s Gong (mid-harbor) · B = G°1” QG North Governors · Start off The Battery (RC on land) · Finish at Morris Canal (Jersey side).

- **Leg 1 (Start→C, ~0.91 NM):** beat to the S/SW into the breeze — **ebb assists** boats to the windward mark; expect right-shift, favor right.
- **Leg 2 (C→B, ~1.21 NM):** reach across toward N Governors — tactical, keeps fleet clear of the SI ferry track.
- **Leg 3 (B→Finish, ~0.83 NM):** reach/run NW to Morris Canal — **foul ebb** keeps it honest (no fast drift-finish), fits the 90-min window.
- **Why:** shortest practical W/L-style course for light 3–6 kt air + foul-ebb return; realistic 60–80 min → finishes well before dark (sunset 20:26).

Alternates (non-pursuit)

Course	Marks	NM	Use if...
ALPHA	C→Fin	1.82	Very light / shorten
BRAVO	C→B→Fin	2.34	PRIMARY
DELTA	E→Fin	3.56	Breeze builds 6+ kt
GOLF	D→E→Fin	3.94	Steady 8+ kt

Pursuit courses (INDIA–SIERRA, blue) excluded per brief. Have AP & S (shorten) ready.

PRO QUICK-REFERENCE / SAFETY

Signals & Timing

- Warning by ~18:30–19:00 to finish in daylight (civil twilight 21:01).
- Light-air: ready to **postpone (AP)** if <2 kt; **shorten (S)** to ALPHA if breeze fades.
- Set start line square to S/SW breeze; allow for **ebb pushing fleet over early** (OCS / I or Z flag).

On-Water Watch-points

- Keep course clear of **Staten Island ferry track** & regulated/security zones (Governors, Ellis, Liberty).
- Wind-against-tide chop near channel on the run to finish.
- Commercial / ferry traffic in Upper Bay — brief safety boat positions at C and B.
